Beechfield Brands

WELCOME

In recent times, we have all had the opportunity to take a step back from our busy, hectic schedule and really consider what's important to our customers now and in the future. What has become clear to us, is that our environmental ethos must not be compromised. We're still passionate about trading responsibly, doing all we can to develop our long-term commitment to sustainability and minimising our impact on the planet.

The environmentally focused evolution continues into 2021 - in fact, now more than ever - which is why we wanted to make sure you and your customers are even more spoilt for choice when it comes to making more ethical decisions.

As a result, you will see new products available in organic cotton and recycled polyester in our 2021 collection. The world is in the midst of some major changes but rest assured that our commitment to you remains the same. We're still here for our customers as the reliable, trusted supplier that we always have been and always will be. With change and disruption to what we once considered normal, comes an exciting opportunity to emerge, having overcome from these challenges better, brighter and more sustainable than ever.

QUADRA®

NEW FOR 2021

This year we have brought you thoughtful, contemporary styles that tap into current and future trends, building on best-selling existing ranges to deliver a collection that will be sure to add value to your business.

Find our most popular styles, reworked in sustainable materials as well as fresh colourways for seasonal gifting and new streetwear classics.

After a year in which our Mor® range experienced huge demand, we unveil advanced fabric technology with the new Mor® Premium Anti-Bacterial collection and introduce the Mor® Recycled, crafted from REPREVE®, the number-one branded recycled performance fibre.

Now is the time to discover more of what you've come to expect from the latest Beechfield Brands collection; innovative products, designed for decoration and built to last.

ACCREDITATIONS

FAIRTRADE®

Made with cotton that was bought at a price that allows cotton producers in developing countries to sustainably invest in their businesses and communities.

Fairtrade® Registration - FL0 ID 20830
www.fairtrade.org.uk

OEKO-TEX®

The STANDARD 100 label confirms that every component of an article, i.e. the fabric, thread and other accessories, has been tested for harmful substances and that the article is harmless to human health. Testing is conducted by independent OEKO-TEX® partner institutes on the basis of an extensive OEKO-TEX® criteria catalogue which considers numerous regulated and non-regulated substances.

In many cases the limit values for the STANDARD 100 go beyond national and international requirements. These comprehensive product and process tests guarantee risk management, consumer and environmental protection, as well as conformity.

11-57667 Shirley
www.oeko-tex.com/standard100

GOTS

The Global Organic Textile Standard (GOTS) is the worldwide leading textile processing standard for organic fibres, including ecological and social criteria, backed up by independent certification of the entire textile supply chain.

Westford Mills® is certified by Control Union under license number CU 811033.
www.global-standard.org

Products carrying the GOTS logo are certified before any decoration is added in accordance with GOTS labelling regulations. Use of the GOTS logo, and any reference to the certification, is not permitted if the product is further processed. GOTS decorators must apply their own certification label.

ORGANIC CONTENT STANDARD

The Organic 100 Content Standard provides a scheme for independent verification that 100% certified organic cotton has been used to create the finished goods.

Westford Mills® is certified by Control Union under license number CU 811033.
www.textilechange.org/standards/organic-content-standard

GLOBAL RECYCLED STANDARD

The Global Recycled Standard (GRS) is an international, voluntary standard that set requirements for third-party certification of recycled input and chain of custody.

The shared goal of the standards is to increase the use of recycled materials. The GRS includes additional criteria for social and environmental processing requirements and chemical restrictions.

www.textilechange.org/standards/recycled-chain-standard-global-recycled-standard

REPREVE® is the number-one, branded recycled performance fibre, chosen by the world's leading brands for quality, flexibility, transparency and sustainability.

www.repreve.com
 Repreve® is a registered trademark of Unifi, Inc. in the US and other regions.

PARTNERSHIPS

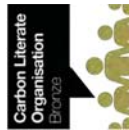

1% for the Planet® is a partnership of companies that understand just how important it is that we protect the world we live in. Its members are concerned with the social and environmental impacts of industry, and know they have a part to play themselves. Together, they pledge their commitment to greater corporate responsibility from businesses, uniting donors and doers to help accelerate smart environmental giving.

The 1% for the Planet® initiative operates as a non-profit organisation. It encourages businesses to help safeguard the environment by donating 1% of their turnover to grassroots environmental groups making a difference in their local communities. Through the Westford Mill® brand we are members as we recognise our own responsibility to the planet and take it very seriously. That's why 1% of our Westford Mill® annual sales are donated to projects that share and reflect our passion. It's not just about money though, we also make sure our staff are given the time and opportunity to actively volunteer in environmental and community projects local to them.

As part of our 1% for the Planet® membership we are long-term supporters of the Carbon Literacy Project and an accredited Carbon Literate Organisation. The Carbon Literacy Project's aim is to advance the education in conservation, protection and improvement of the physical and natural environment.

Carbon Literacy: "An awareness of the carbon dioxide costs and impacts of everyday activities, and the ability and motivation to reduce emissions, on an individual, community and organisational basis."

ETHICAL PRINCIPLES

Beechfield Brands is committed to upholding the highest ethical and environmental standards throughout our entire supply chain.

We operate according to an ethical policy that protects and rewards every individual involved in the manufacture and supply of our products. The ethical policy references and respects local laws, with regard to wages, health and safety, workers' welfare and human rights. It expressly forbids the use of coerced/forced labour, including child workers.

Our field-based staff carry out full audits on all of our manufacturing partners to ensure that our ethical standards are constantly maintained.

We endeavour to protect the quality of the environment through sound environmental practice. We ensure that our manufacturing partners meet or exceed all local environmental laws and regulations, and we promote energy efficiency and the reduction of waste at every stage of production.

We stay continually updated on REACH legislation, commissioning regular fabric and component testing to ensure compliance with this strict European product safety and environmental protection standard.

We know the value of your image and good reputation. You can rest assured that choosing Beechfield Brands will only ever enhance your own ethical and environmental credentials.

RECYCLE, REBRAND, RESTYLE

Consumer demand for eco-friendly design is showing no sign of slowing down. This year you can uncover 2 new styles in the BagBase® Recycled collection that tap into the surge in popularity of outdoor adventures, with the new B6283 and B6287. Low impact but high on longevity, these will keep on delivering for many years to come.

Become a champion of sustainability with the new B46 Recycled Beanie. This rework of our best-selling B45 is made from 100% Recycled Polyester, for the most low impact composition on the market.

WEAR DON'T WASTE

THE RECYCLED COLLECTION RE-UTILISES DISCARDED PLASTIC BOTTLES TO PRODUCE 100% RECYCLED POLYESTER FABRIC FOR THE MANUFACTURE OF EACH PRODUCT.

THROWAWAY CULTURE IS OUT

For more enviro-sensitive products, look to the Mor® Recycled, made from REPREVE® 100% Recycled Polyester, the world's leading recycled fibre and trusted globally to bring brands high performing, earth-friendly products.

Across both our Beechfield® and BagBase® brands you'll find the equivalent number of PET bottles it takes to make each product, so instead of these bottles going to landfill we are re-using and recycling them into new product.

Throwaway culture is out. Wear, don't waste.

DESIGNED FOR DECORATION

The potential for quick, easy and profitable decoration is designed into every Beechfield Brands product.

Our 'Retail-Ready' products are perfect for all forms of personalisation and decoration, whether it's a screen printed logo, embroidered brand, digital print image, sublimation or heat applied transfer. The good news is that all of our products are specially developed with multiple decoration processes in mind.

Fabrics are tested for a wide range of decoration requirements, such as compatibility with the most popular printing inks, embroidery threads and transfer papers. Features are positioned to give maximum scope for branding and creative expression and we've selected the best finishing details to complement and enhance many surface decoration opportunities.

In short, we've created the products specifically for decoration; now it's over to you. In addition, to make it even easier for you and your customers to visualise their logo on the products we have our Technologo tool available on every product page on our website. This will help you create a realistic representation of your decoration design. Available for all styles and colours in our range, it's a handy tool to create the perfect virtual sample.
